

Pedestrian Safety in the Town of Bladensburg

The Town of Bladensburg and its associates are encouraged to go beyond minimum standards to provide safe and convenient environments that facilitate healthy lifestyles. The Town will **encourage** and incorporate where possible/ feasible safe and convenient walking and bicycling facilities into pedestrian safety projects. The town has the responsibility to work with appropriate agencies or departments in order to improve conditions and opportunities for walking and bicycling, and to integrate walking and bicycling into the town's transportation systems. Numerous benefits, (i.e., health, safety, environmental, transportation) will be derived by individuals and the community as people walk and bicycle throughout Bladensburg.
